

ENERGY SERVICES

Well Connected

Global to Local

HMH ENERGY SERVICES brings a unique combination of global project services and turnkey solutions to power generation, oil & gas and industrial projects. Our services are available to local and multinational corporations and government agencies both domestic and foreign.

With an extensive global network consisting of hundreds of energy professionals and local leaders in both the private and public sectors, HMH can go to developing countries where you may need the local access and the know-how that only HMH can provide.

We at HMH take great pride in the caliber of our people and the collective experience they possess. Over the years we have made a concerted effort to attract and retain the best minds in the business, with broad-ranging expertise across the energy sector.

As a services firm, HMH clients only have to deal with one supplier for multiple services.

HMH was founded on the principle that customers come first. "Customer first" stands for trust, professionalism, integrity, safety and devotion to excellence. Our owner and senior staff have committed to aligning their interests closely with those of our customers. That means we operate with integrity, prudence and a view toward creating long-term value. By aligning our goals with those of our customers, HMH has become a trusted partner for our commercial and government customers worldwide.
